NOT CIRCULATE

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U. S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

[REDACTED] the Soviet-occupied countries of Europe between 1 April and 1 May 1952 indicate no changes in the organization or strength of the Soviet ground forces. The majority of the combat divisions in the Soviet Zone of Germany started moving from their posts to the troop training grounds in the middle of April 1952.

## GERMANY

### Order of Battle.

1. Reports received between 1 April and 1 May 1952 indicated no changes in the general dispositions of the Soviet ground forces in Germany prior to the end of April 1952. \*
2. The following units in the Soviet Zone of Germany, with [REDACTED] location, and date of observation, were confirmed between 1 April and 1 May 1952:

25X1

#### a. GHO Units of the Group of Occupation Forces Germany (GOFG).

Training and Field Exercises.3. Division Training.

During the period from mid-March to the beginning of April 1952, the units continued holding short-term firing practices at the troop training grounds and major combined-arms exercises lasting several days in the vicinity of their billeting areas. The arrival of advance parties of the divisions at all troop training grounds prior to the end of March indicated that the distribution at the troop training grounds of the divisions and headquarters units would generally be the same as during the previous year. The movement of the units began about 10 April and seemed to have ended by 23 April 1952. After that date, the combat divisions were distributed at the troop training grounds as follows:

Area of the Eighth Gds Army.

OHRDRUF: The 20th Gds Mecz Div and components of the 39th Gds Mtz Rifle Div permanently stationed in OHRDRUF.  
 KIRDEL: The 57th Gds Mtz Rifle Div.

Area of the Third Shock Army.

LETZLING HEATH: The 7th and 10th Gds Tank Divs; components of the 19th Gds Mecz Div from MAGDEBURG; and the 207th Mtz Rifle Div, rotated from their posts.  
 WITTSTOCK: The 10th Mecz Div.

Area of the First Gds Mecz Army.

KONIGSDENNECK: The 8th Gds Mecz Div and the 11th Gds Tank Div.  
 ZWITTHAU: The 9th Tank Div.

Area of the Third Gds Mecz Army.

SPIDER-MARKENDORF: The 6th Gds Tank Div.  
 WEISSWASSER: The 9th Mecz Div.

Area of the Fourth Gds Mecz Army.

TEUPLIN: The 6th Gds Mecz Div and the 25th Tank Div.  
 LIEBHASE: The 7th Gds Mecz Div.

SECRET/

SECRET/

25X1

25X1

Only the 9th Tank Div did not appear at its 1951 summer training ground; it moved to ZEITMAIN, rather than KONIGSBRUECK. In 1951, when the other divisions moved to the troop training grounds, the 21st Gds Mecz Div had first remained at the post, then participated in a large-scale exercise in the AMEN-DESLAU area during the first half of March 1951 and finally had moved to the KIEDEL troop training grounds as late as 15 May 1951. It is undetermined whether the division will be engaged in a special exercise this year also. There is a possibility that, during the weeks to come, the division may move to the LOSSA area northwest of FAULBURG, [REDACTED]

25X1

25X1

[REDACTED] It was definitely determined that a new troop training ground with permanent quarters has been under construction in this area since March 1952. LOSSA will allegedly substitute for the KIEDEL training grounds. The future occupation of this area is still to be determined as vehicles from both the 21st Gds Mecz Div and the area of the First Gds Mecz Army appeared there simultaneously. The three divisions of the Second Gds Mecz Army, the 94th Gds Itz Rifle Div and the 14th Gds Mecz Div were still at their permanent quarters as of 20 April 1952. It can provisionally be assumed that these divisions will conduct their summer training in the vicinity of their posts and, occasionally, will rotate individual units to the troop training grounds as was their practice in 1951.

#### h. Special Exercises.

- a. The AAA and artillery units of various divisions and corps, which had moved to ALTENGRABOW at the end of February and the middle of March 1952, were for the most part back at their posts by the end of March. Brigades of the two artillery divisions of the IV Arty Corps started moving to ALTENGRABOW from RATHENOW on 15 April and from POTSDAM on 21 April. Similar observations were made in 1951, except that the 30th Gds Gun Arty Brig from POTSDAM moved to ALTENGRABOW as late as August 1951. The 148th Gun Arty Brig (US) from the southern section of the Delius Kaserne in POTSDAM now appears to have remained at POTSDAM. The 124th Hvy How Arty Brig (US) of the 6th Arty Div, too, has not yet left the post.
- b. The first firing practices with live ammunition at the MUSTROW AAA range were observed on 4, 10 and 13 April 1952. Components of divisions identified there at that time [REDACTED] included elements of the: 2d Gds AAA Div; 6th Gds AAA Div (US), 32d AAA Div (US), 13th AAA Div; 4th Gds AAA Div; 62d AAA Div (US) and AAA Div of the Fourth Gds Mecz Army. Other units identified there were the AAA Regt of the XVIII Gds Itz Rifle Corps and the 286th Gds AAA Regt of the 6th Gds Tank Div.
- c. Small tank units continued to arrive at LATZLING HEATH for short-term firing practice. Detachment of the 20th and 21st Gds Mecz Div and of the 39th Gds Itz Rifle Div were identified there during the second half of March 1952. Practices in April involved mostly tank units of the 21st Gds Mecz Div from Halle and, at the end of April, a unit of the 74th Tank SP Regt of the 94th Gds Itz Rifle Div.
- d. The exercises of the engineer units of the Second Gds Mecz Army at NEUTOMHLEN-SCHLUSE north of ALTENUPPIN ended on 13 April 1952. Training activity at the BITTKAU engineer training site began about 17 April. The engineer battalions of the two corps of the Third Shock Army were identified there at that time.

5. Specific information on the divisions and units subordinate directly to armies and corps during the period from the beginning of February until their departure to the troop training grounds in the second half of April 1952 has been compiled. \*\*\*

25X1

#### Transportation.

7. The operations situation of the Soviet zone railroads was satisfactory during the month of April. The transfer of Soviet Army units to their summer training area was reflected in the greatly increased number of railroad cars claimed by the occupation power. The maximum number of 2,204 cars was reached on 16 April 1952. After 24 April, the number of cars claimed by the Russians dropped to the normal level. Coal stocks continued to increase. On 22 April 1952, a total of 303,039 tons of coal was available as against 237,709 tons on 6 March. This quantity is adequate for about 15.3 days' operations. Hard coal stocks represented 50 percent of total coal stocks. The volume of traffic through border crossing points on the Oder-Neisse line remained constant. The following special transportation operations were under way during the reported period:
- a. Grain shuttle train program
  - b. Exchange of trucks program
  - c. Shipment of tanks and jet planes to the Soviet Zone of Germany
  - d. Shipment of uranium ore to the U.S.S.R.
8. The improvement of the Soviet zone railroad net was continued and involved:
- a. The construction of numerous connecting curves.
  - b. The start of work on the reconstruction of the second track on the GUBEN-WALDENBURG railroad line.
  - c. Plans for the electrification of some lines in the HALLE railroad district.
9. The numbers of railroad cars available in the zone was estimated as follows:
- a. As of 7 April 1952, a total of 2,513 tank cars suitable for the shipment of white products was available. This figure does not represent a change as compared with the last reported total.
  - b. As of 31 March 1952, a total of 10,107 tank cars suitable for the shipment of black products was available.
  - c. As of 20 April, 2,083 heavy-duty freight cars and 47 well wagons were available.

SECRET

25X1

SECRET/

25X1

10. By order of the Soviet Occupation Power, the BERNAU-MEDLITZ-LEISTEN-DOERF-OTEN IENBURG-JEWELNDORF-SCHLAATHE-KREITZBERG-SCHAFFELDE-BORNWICKEN-PAULN road is to be improved. The road is to be widened to 7.20 meters and all the bridges on the road will be reinforced to accommodate a load capacity of 30 tons. The completion date for the project was fixed for 1 November 1952. The road will establish a northern by-pass around BERLIN and will not go through any of the Western Sectors of the city. In this respect, the project supplements the BERLIN Outer Freight Ring, which was also designed to by pass any sectors of the city held by the Western Occupation Powers. A similar measure in connection with barge traffic is the proposed construction of the PARENZ-NIEBELUNDESDORFER Canal.

#### Supply.

11. In connection with the exchange of used vehicles, predominantly of foreign origin, for new motor vehicles, the number of supply trains entering the Soviet Zone of Germany en route from the U.S.S.R. via FRANKFURT/Oder increased in March 1952. In February 1952, 969 railroad cars passed through that border crossing point, and in March, the number was 1,271. It is expected that this traffic will continue to rise in April. Between early 1952 and mid-April, an estimated total of 360 M3-L's, 110 tanks, mostly JS-3s and T-34s, and 1,800 new motor vehicles entered the zone. Interzonal supply traffic also increased in early April as compared to that observed in February and March. This rise is connected with the increased supply shipments from the U.S.S.R. and the beginning of the summer training. In spite of this increase of supply traffic, the supply situation may be considered normal. Ammunition shipments decreased from 300 carloads in February to 133 carloads in March.

#### German Volkspolizei.

12. No accurate picture on the reorganization of the VP Dienststellen (VPDs) has yet been obtained. However, the hypothesis that the VPDs are actually cadre units has again been confirmed. Newly initiated recruiting campaigns indicate that it is planned to bring the very small cadre units up to a normal strength or, at least, to keep them at the present strength when the 3-year term of service of a large percentage of the VP members expires. It is anticipated that discharges will be delayed or prevented by "compulsory volunteering" tactics. Reports on the activation of a Luftpolizei have not been substantiated.
13. The reorganization and reinforcement of the Grenzpolizei Bereitschaften employed along the zonal border has been confirmed.

#### AUSTRIA.

#### General.

14. The OB situation of the Soviet Army forces in Austria revealed no essential changes prior to the end of April 1952.

#### Order of Battle.

15. There is definite reason to believe that the 250th Rifle Regt of the 13th Gds Recz Div is at KAISERSTEINBRUCH and the 1st Gds Rn of the division at GOTTENBERG. [redacted] the 8th Gds Rn of the 13th Gds Recz Div. The hitherto unlocated 267th Gds Rifle Regt of the 95th Gds Rtz Rifle Div is now carried

1336th AAA Regt			

Training.

17. The observation of several small shipments of elements of the 13th Gds Mecz Div tends to indicate that, prior to the middle of April 1952, live ammunition firing practice at company or battalion level outside the posts was continued; the units also used the DOELLERSHEIM troop training grounds. No information has been obtained until the end of April 1952 to indicate that major units moved to the troop training grounds.
